Music to entertain children without compromising the sanity of the parents. This CD has been kid approved by test audiences, and for some, it became their favorite CD. 18 MP3 Songs KIDS/FAMILY: Children's Pop, KIDS/FAMILY: Lullabies Details: Pete Buchwald has been a musician, arranger, and songwriter for 20 years. As he began to have a family and was exposed to the world of contemporary childrens music, he heard things that were good, and some things that made him want to strangle the artist, or at least hurl the CD into the trash can. Petes songs are catchy and though designed lyrically for children, the music is such that a parent can enjoy the songs as well. Pete received a degree in jazz composition from the prestigious University of North Texas, and took some of his classes at Berklee College of Music. He is currently pursuing a Masters of Science in Recording Arts at the University of Colorado. Pete first got into childrens music when his roommate from college got a position reviewing submissions for a childrens publisher. He began submitting his music, and though none of the music was chosen for the work of the company, Pete found he enjoyed the craft of writing childrens music. Pete worked as a music director for a childrens camp in Texas for two summers. Later, Pete was recruited by animator Bear Cahill to help write and record music for the award winning Booples childrens videos. Pete currently lives in Colorado with his wife and two daughters. In addition to music, he enjoys flyfishing, camping, hiking, reading, cooking (and consequent eating!).
