No more than three producers (Dr. Dre, RZA, and Prince Paul) can test DJ Premier's status as the most important trackmaster of the '90s, and no style is more distinctive. Aggressive and raw, a Premier track was an instantly recognizable soundclash of battling loops and heavy scratching -- all of them perfectly timed -- that evoked the sound of Brooklyn better than anyone. Besides helming tracks for his main concern, Gang Starr, since their 1989 debut, Premier's productions appeared on many of the East Coast's most important records: Nas' Illmatic, the Notorious B.I.G.'s Ready to Die, Jay-Z's Reasonable Doubt, Jeru the Damaja's The Sun Rises in the East, and Mos Def's Black on Both Sides. These drums are classic...better than they ever been!!! These sounds were recorded and designed by professional engineers using Pro Tools for the best sample quality available. These samples have been processed with Waves processing tools and SSL compressors for more impact and presence in your musical creations. Many drum libraries tend to have overused fx, have digital distortion and lack clarity as well as the natural sounds that some of our favorite producers have come to rely on to make hit after hit. Our samples are carefully picked, recorded, and fully analyzed to ensure that they are clear of any faults and have more live sounding feel which is credited to the drum sets, sound modules, and samplers which are widely used by award winning producers. You will notice the difference once you apply these sounds to your musical works and you will not regret it. This product is delivered digitally, so once the purchase is made you can get to making your hits immediately afterwards! Not only does this give the product as fast as your internet connection can provide, but it also saves you \$money\$ on shipping and handling charges.
