He came from Chile and became a citizen of the world. The Hang, a new instrument from Switzerland, gave him great inspiration. The Hang was invented in the year 2000 and was inspired by the Carebean steeldrum and the Indian gatham. Its great sound and vibration touched people all over the world. The Hang conquered the world without commercial marketing, as some call it a discreet revolution. Due to the limited production of that new Instrument, it is still a wanted rarity. Rafael Sotomayor is one of the few Hang masters worldwide, who is dedicating alot of his energy to keep improving his sound and vibration. For Rafael music is like a medium that conveys messages through its waves and vibes. With each note he is playing he wants to send a meaning to the ear of the listener.
