Fantasy Electronic Rock and Roll 3 MP3 Songs ELECTRONIC: Industrial, ELECTRONIC: Dance Details: Lucid Dementia is a fantasy electronic band led by a six foot tall alien-like creature puppet. This was a 3 song cd promo that Lucid Dementia put out after "Twisted". The remix of "Twisted" was done by Eric Gustafson, formerly of bands: "Terminal 46", "Nocturne", and presently "Lust Murder Box". He is a musical programming genius: lustmurderbox.com/ It was only meant to be a run of about 100. It went way over that, and frankly, since I was burning and producing these myself, I got tired of doing it. So if you have a copy, it's a collectors item, and if you're a record company interested in doing the production and distribution, email me. I'll make it worth your while. Also - This cd includes the second wave of members to this band, which was Sheldon - Vox, and Programming; Cassandra - Female Vox; Christian - Guitar; Azil - Drums.
