At CD Baby he is here to promote his Solo Flute CD's, "Cloud Etchings", "Ocean Whispers" and "SHAMANIC FLUTE". "...And so it is with Bodhi's flute songs. He invites us into the resonance of echoing mysteries that are as common and beguiling as hawks circling on thermals or sunsets radiating from under thunder clouds. We've heard that aching beauty so many times. It gives us the strength and the faith to love this impermanent world. That's what shamans have always done: connected us to the power and beauty of the unseen so we can restore ourselves to the balance of true health. After over thirty years of living close to both the wild heart of nature and the elusive subtleties of the flute, Bodhi breathes us into these tranquil moments of being, at ease in the beauty of our lives....." - Patrick Woodworth, Poet February, 2004
