stylesupportmidi.com/purchase-Accompaniment.htm OVER 400 LATIN SONGS !!! These are tools for songwriters and performing musicians. They are original, royalty free MIDI Bass Guitar and MIDI Drums complete with Accompaniment Drum Fills on every song. These tracks will provide a great foundation for developing your own songs and backing accompaniment tracks for performing live. Synths and Samplers sound fantastic with these files. Transpose the Bass Guitar into any key desired. Add your own rhythm and lead. Naturally, these tracks provide outstanding accompaniment for musicians to jam and practice. Each purchase includes the individually "Named MIDI Files" corresponding to the "Song List", the "Song List" itself, and the "Sheet Music" depicting the chords used on each measure of the song. Just print out the song desired. The included Song List is designed only to give you an idea of the structure of each song. Each drum sound is labeled and has it's own track for easy editing.
