Details: You can listen to Justice's songs (full length) at Justice.Bandcampor SoundClick.com/justice-nebraska. Justice is an eleven year old singer, who brings a fresh style to the songs she sings. Although taking cues from such singers as Salena Gomez and Vanessa Hudgens, Justice has developed a unique sound that is hers alone. Her style is sweet and cute but with expression and depth that are far beyond what one would expect in an eleven year old voice. For this cd, Justice teamed up with a cadre of first rate professional musicians, who have performed the dynamic music tracks for these songs. She traveled to Nashville to record with well-known studio musicians at Rick Otts StringHouse Studio. Other music was performed by Bill Creel at his 10 Acre Recording Studio in Brooksville, Florida. The fusion of songs, music and Justices compelling vocals, have resulted in a cd that takes a step above the usual tween pop sound. It is a sound that one does not forget. Justice - A Girl is More.
