Master Resale Rights Available In The Members Area! - This page and videos may take a few minutes to load, please wait. *IMPORTANT NOTE ABOUT THIS PRODUCT* I created this product revealing all my eBay secrets (80 videos & software) last August 2007. I had OVER 1500 desperate people waiting to buy. But due to certain software issues (which you can find out about in this video below) I delayed the release of this product completely. The bottom line is, the software application that was included as part of this package (which took me thousands and 12 months+ to develop for commercial release) was disapproved by eBay for commercial sale to my buyers because it was just TOO revealing and violated their policies. Feeling disheartened after all that hard work and time (12 months of my time and money dammit!), I GAVE UP and locked these videos away on my hard drive forever, vowing never to release them, swallow the pain and just move on. You see, this eBay product was the first ever product I created and only 3 or 4 people ever did get to witness the masterpiece that was created. Even to this day I STILL get people asking me CONSTANTLY about these eBay videos that I was glorifying last year as the best comprehensive 'make money on eBay' system. 13 months on now... I have matured and learnt a lot about Internet Marketing. Providing VALUE to people is how you become successful. I realised that the least I can do to help aspiring eBayers, was help educate them and give them my videos since they contained a VAST amount of knowledge. I wasn't going to gain anything by sulking, nor was I doing anyone any favours by keeping all this knowledge to myself. Since I created the course, eBay has changed quite a few of their policies so certain content videos inside the members area may not reflect these changes (such as the feedback and digital policy - although new 2008 videos will be available if you join my underground club). But yeah, the overall marketing plan still holds EXTREME value (even though the course was produced last year) and the information you can still gain from this product far exceeds many changes. This course contains most of the pieces of the puzzle that you need to succeed on eBay. Watch the video above and I'll take you through what happened. Also note, that even though the sales page below mentions and includes references (and screenshots) to the software, you will NOT be receiving the software as it is NOT available anymore. References are there to give you an idea to the

strategy behind this system. ****HOWEVER****, I have created a brand new 2008 video showing you HOW you can do what the software did but MANUALLY, using a free ONLINE tool - and it's in the members area for you right now to watch. Now continue to read the sales letter, and thanks for your understanding... Do You Want To Become Rich Online Fast? Released on the web for the first time... and possibly the last... Before I begin I am going to tell you that I am not here to lie to anybody. There is a lot of stuff to read on this page and it is in ***your*** interest that you read everything. Do not get distracted by the fancy videos or graphics on my site but ***understand*** the message and what I can do for you. Most gurus pay copywriters thousands to create hypnotic sales pages so that they can sucker you in with fancy psychological trigger words that make you reach into your pockets and hand them your credit cards in return for rehashed information products. I have written ***every*** single word on this page by myself. I am not a copywriter but an average guy who failed at many things in life but turned it all around a few years ago to become really successful online. I have been making money under the radar for ages but now it's time to announce myself to the world. If you are looking for a 301 page, 24 DVD set guide (that comes in a massive box) that will teach you how to become rich overnight you are on the wrong

page. There are plenty of high priced, fluff filled junk info-products on Google for you to go waste your money on. The Technique Is To Do The Minimum Amount For MAXIMUM Effect I pretty much hate hard work. I am sure you do too so I am going to teach you how to make more money than you could ever make in a job - *fast*, by being *smart*, without the hype and crap most gurus ramble on about leaving you in 99 of cases non the wiser and still poor. Why am I revealing my secrets and software? - I get asked this a lot. It's quite simple so listen up. - To prove that I know what I am talking about and get my name out. - To prove that it is *easy* to make a full time living online (by being smart). - To help *you* make *tons* of money. We all deserve a comfortable life. - To wash the floor with the gurus who sell you crappy *regurgitated* eBay information over and over again. They tell you girly things like "use a nice picture in your auctions", or "make sure you have a good eBay title". We all know this. I am going to give you the hardcore *REAL* eBay secrets. I am talking about the real hot, never before disclosed techniques. - These are just so *unbelievable* that you will go weak at the knees learning them. - I have done some pretty bad things in my life. You know, I constantly see the *real* experts 'giving back' to the community again and again, and what happens, is that they become even more blessed. I feel that if I also 'give back' to the community it would be a way for me to repent for my sins by doing this act of good. - Lastly, every single thing I have said is true. Words spread fast over the internet. If I am lying everyone will know and my internet career will be short lived. I am here to stay. That means giving you the *very* best. Let's get down to it. My story starts back in late 2002. That is when I opened my first eBay account. I didn't know it then but that day was the beginning of my online search for wealth. I used my eBay account to buy a few things I found on the eBay site whilst browsing. Most sellers start off as buyers. So anyway I tried my hand at selling soon after and still remember my first sale and the trip to the postal office. I sold a cd-r with a few files on it. The buyer was happy and left positive feedback the next day. I was on a massive high, after that. I couldn't believe how easy making that \$15 was! I was making good sales for around three weeks and then the unthinkable happened. Competition arrived and my sales started to go down. I tried listing my information cd in different ways, using bold, home page featured, and still, sales were going down and eventually stopped.. Distraught and disheartened, I picked myself up and started to look for wholesale sources so that I could find high priced branded goods like Sony, Nike, Samsung at wholesale prices to sell on eBay and become rich. That didn't happen. I'm sure you have also looked around for cheap wholesale sources, bought those \$2 wholesale supplier source eBooks on eBay and

failed. Fast forward a few years and I started to get into the internet marketing arena. I tried to master Google Adwords and ClickBank. I bought all the Adwords videos, courses, affiliate marketing packages, guides, and everything else under the sun telling me how to make money using these methods. I was excited. I was pumped up and ready to start. I thought I would become the next super affiliate. I was certain this was going to make me rich. It just sounded **too** easy. Look what happened: Adwords spend; 3,572.87 (\$6788.45 converted to dollars) Commission Made on Clickbank; \$3150.55 Clickbank Commissions - Advertising Costs = Profit $\$3150.55 - \$6788.45 = -\$3637.90$ I was \$3637.90 in LOSS! Being a student and \$3637.90 in debt is not good. Fast forward another year and I was still jumping around from program to program trying different schemes out. The buzz then was Google AdSense so I jumped onboard bought all the how to videos, course, and eBooks. I was excited, and ready to start. I spent some time creating a few websites, put Google AdSense ads on them and uploaded them to the web. I was very certain this time that this AdSense thing was going to make me rich. All I needed to do was get a few clicks and I would be making \$20,000 per month like the gurus. Again, it sounded too easy. Here are one years earnings: I made \$123.40 in one year. That's about \$10 a month. It was pathetic. Fast forward again and **hundreds** of get rich quick eBooks later this is what my pc looked like.. I had spent thousands and thousands on these products that promised me unlimited wealth. I tried it all. I was frustrated, desperate, and right back where I was a few years ago. I was back on eBay selling eBooks, downloadable items, information CD's and stuff like that. I was making a few hundred dollars every month. It wasn't going to set me free but it was better than nothing. Most of it went in fees anyway. Things were about to change. Reading all the how to get rich crap over the last 4 years must have done some good because I realised that If I wanted to be successful, I just had to copy somebody that was successful. Even a fish could have figured it out faster than me. I needed to figure out who was making money, and what they were selling. I went underground and became a spy. I started to spy on eBook sellers to see what they sold, how many they sold, what their best products were so that I could steal their success and products right from under their nose. Moving things forward I created the iSpy Auction Riches system + software. I have never told anybody about what I have been doing. I created it originally for my own personal use. I have been secretly using the software and my techniques to create a **MASSIVE** amount of wealth by spying on eBay sellers. Heck, I was always good at cheating in school ;-)

Imagine if you knew **WHO** was making thousands of dollars, and you knew **WHAT** they were

selling. Don't you think you could take and duplicate those products for yourself? What would you think would happen to your bank account? Your bank balance would explode like mine did. Here are some earnings over the last one and a half years for only a *few* of my eBay, Paypal accounts: My eBay Account #1 (Below is a screenshot from one of my, many, online eBay accounts) \$786.71 in 24 Hours! I generated \$786.71 with only *ONE* very profitable product that I found with my iSpy system. I set this 'part time' product up on this account just to show what is possible. No eBay Seller Is Safe.. Not Even Me I do not reveal all my eBay accounts - you will realise why within the course. I wouldn't want you stealing all my profitable products now would I.. You too will learn not to disclose your profitable ID's and how much you really make to others. After all, it is just *too* easy to steal any eBay sellers profitable products when you know my system. My eBay Account #2 (Below is a screenshot from one of my, many, online eBay accounts) \$31,091.70 in 30 Days! I generated \$31,091.70 with only *FIVE* profitable product that I found with my system.
