The 5 Techniques used to create Supraliminal Messaging mp3 are as follows:

- 1 Pure subliminal: This technique uses powerful, positive affirmations which are barely audible, they are embedded in the relaxing background music. While your conscious mind will ignore them your subconscious will be receiving the message.
- 2 Reverse messages: These are affirmations played backwards. The conscious mind cannot comprehend these messages, while the subconscious can interpret the messages instantly.
- 3 Stereo confusion: This consists in sending different subliminal messages to the left and right ears simultaneously. The conscious mind becomes confused and simply doesnt bother to interpret this information; you subconscious mind however can easily handle the 2 messages at once.
- 4 Speed: These are affirmations speeded up so that the conscious mind will not understand them, however the subconscious will have no difficulty.
- 5 Binaural beats: This is a technique that uses 2 different sounds in each ear to alter your brainwaves and induce you in a more relaxed state making it easier for your

subconscious to received the positive affirmations. Each Supraliminal Plus recordings contain embedded supraliminal suggestions, and they also contain suggestions which are audible throughout the recording. The audible suggestions are placed on two channels and at different intervals, so that two sets of different messages are simultaneously delivered to your left and right ear. Even though you can consciously hear the suggestions, the suggestions to which you are not paying attention consciously, will bypass your conscious awareness and go directly to your subconscious. This technology works powerfully because it engages both your conscious and subconscious mind We offer a Special Bundle Supraliminal 10-Pack mp3 for \$59 1). Experience Prosperity 2).
