If you're sick and tired of promoting YouTube and paying the high cost of 3rd party hosting services just so that you can share your audio and video files on your sites, blogs and social profiles. I know you've had a hard time with it. Because I've been in the same boat, but not anymore! "I discovered how simple and easy it can be to store and share my audio and video files worldwide by using Amazon S3's free to join service" Amazon S3 has such low prices for storage and bandwidth that they have fast become the file hosting of choice for many businesses and individuals. You only pay for the bandwidth and storage space you actually use, and those rates are so cheap compared to other hosting services that it will make you joyful plus it's free to join. So you can sign up right now, and give it a test drive without spending a penny! Unfortunately, in true Amazon style, the directions are written in "Tech Greek", so understanding exactly how to upload and access your files can be a bit confusing. Up until now Amazon S3 has been cheap but not so easy. Now, with this video tutorial, it's both! This simple tutorial shows you step by step.... How to use Amazon S3 and stop bogging down your server. All about buckets and how to manage the files in your Amazon S3 account. How to use an easy tool that lets you drag and drop files directly into your Amazon S3 account. How to set permissions so that you can easily share your files or restrict access if you need to. How to quickly embed videos stored on your Amazon S3 account into your webpages. So if you are ready to start saving money, storing and sharing your files on Amazon S3 this simple to follow 16 minute video can help you get started right away and hassle free!
