It's time to take back the streets! Too many wannabes and fakers think they can test Prime Loops, so we're shutting them all down for good with this one, the heaviest and most devastating hip hop construction kit we've ever produced. Leave your enemies to stand and stare as you blow industry standards apart with a full clip of the deadliest ammunition on the market! Load your rack with over 1GB of the most outstanding rhythms, bass loops, synth progressions, FX and drum hits you've ever heard, all stacked up as ten totally versatile construction kits for accelerated mixing of your own floorshaking instrumentals. Build up the layers your own way to create battle weapons that nobody can mess with, in classic urban minor keys and at tempos ranging from 80-100bpm. Each and every sample is pre-engineered and professionally compressed for maximum impact in the club and over the airwaves, so just drag, drop, and roll with whatever vibe sparks your imagination. This pack is a beatmaking masterclass for any badboy producer on the scene, giving you all the tools to flex your own flavours, along with the backup of our triple-check quality guarantee. As an extra special for all you MCs out there we have also decided to add 10 fully arranged, absolutely royalty free full-length beats to this pack! It's never been easier to get in the flow! Every millisecond of "Urban Takeova" has been buffed up to shine through the mix, and every file is properly labelled by tempo and key, pre-formatted for instant use in all samplers and sequencers including Reason, Logic, Ableton, ProTools and many more. As always, we include a 100 royalty free license, so you can bump and grind all the way to the bank. We take absolutely no responsibility for broken windows or spontaneous bowel movements when using this material. These beats hit so hard, you'll need body armour in the studio. So tell the neighbours to go on holiday, tell those other crews to step back, and don't forget to reinforce the walls before you turn this *** up to level ten!

This is the .WAV version of Urban Takeova.
