Learn How To protect And Speed Up Your Computer Today With Pc Speed Up System!!! FREE BONUS - Plus you get to choose a FREE Bonus Gift from any product I have in my Tradebit Store! {One of equal or lesser value.} Introducing the PC Speed Up System Video Series: 1 # Introduction You'll get an introduction of your computer, how viruses and malware can affect it, and the basic understanding that is necessary before we move onto the rest of the video series. We'll also talk about different types of security attacks so you know what to expect. It's better to know what to expect than not know at all. 2 # Spyware, Malware, Trojan Horses Have you experienced un-necessary popups that come out of nowhere when you are simply surfing the web? Or has your Internet surfing experience slowed down to a crawl? It's possible it is your connection, but if it used to be fast and now it's slow...the problem is likely to be spyware, malware, or some sort of trojan horse. Now, while you don't need to know those technical terms, these types of security attacks, generally run behind the scenes on your computer, w/o appearing to you. Their job is to spy on your, your important data, and what you type, and send it back to the hacker. So while you can speed up your computer by removing them, you will also protect your personal data. 3 # Antivirus and Firewalls What about protecting from outside attacks? ...and viruses? Like I said earlier. Most people have antivirus softwares, but a lot of people forget about a personal firewall. Especially if you use wifi and you're computer is not protected by your router's firewall, how will you monitor people or programs trying to get onto your computer? This is just the basics levels that everyone must protect themselves with. 4 # Speeding it up: How to speed Vista up If you've used or owned Vista, you know that Vista uses a lot of RAM or memory because the design and way it was created. However did you know that there are small tweaks you can make to Vista that will speed it up? You'll learn just that in this video 5 # Speeding it up: Internet Browsers and Internet Cleaners The type of Internet Browser you use can make a huge difference in how fast your computer can respond to the Internet. We'll explore how using other types of browsers will allow you to have a faster surfing experience, and yet a more secure one. Did you know that everytime you visit the internet, your computer saves all those pictures and data to your computer? Eventually your computer becomes this huge wasteland of files you don't need. Learn how to

remove those unwanted files. 6) Speeding it up: Start Up Programs, Defragging, Buy More RAM In this last video, we will explore more options for you to speed your computer up faster than ever   Product Package Specifications: File Size (Zipped): 88.60Mb Video Format: Flash Sales Page: YES Included Graphics: YES Cover Graphics: JPEG For Complete Details and to view a copy of the Professionally designed Web Page like the one you will receive with this package just CLICK HERE NOW!!!A separate page will open.
