

Mp3 Susan Cantey - Sea Of Calculus

[DOWNLOAD HERE](#)

Tired of new-age heavy-metal Chinese rap? Well...put on those fuzzy red slippers, break open a box of chocolates and get ready for some delicious new Celtic soft rock. 13 MP3 Songs EASY LISTENING: Soft Rock, ROCK: Math Rock Details: Susan Cantey (Macintyre) was born in Aberdeen Scotland in 1950, the daughter of two mathematicians: Archibald and Sheila Macintyre. The family immigrated to the United States in 1959 when both parents were offered positions at the University of Cincinnati. In 1974, Susan had a dramatic encounter with Jesus Christ and became a born again Christian. She began writing Christian songs and produced an album of her work in 1975. That fall, Susan pursued an opportunity to go to college and, in 1978, she completed two degrees: a B.A. in mathematics and a B.S. in secondary education. She graduated summa cum laude and Phi Beta Kappa with honors in mathematics. She later completed a masters degree in mathematics for teachers in 1983. Song writing took a back seat to family and work. Susans song writing career was suddenly revived when she met her second husband, David Cantey, in the summer of 2000. He challenged her to start writing again. David writes short stories (among many other things!) and is Susans primary song editor and collaborator. Susan has been teaching mathematics at Walnut Hills High School in Cincinnati Ohio since 1978. She also taught freshman calculus for the University of Cincinnati for twenty three years but retired in order to spend more time developing her song writing craft. In the summer she teaches math content to special education teachers. They are the true heroes of education. They have unbelievable stories to tell! Susan is a member of BMI. She performs her songs at local churches, retirement homes and coffee shops, fills in on piano occasionally, and gives away hundreds of CDs as part of her ministry of sharing Gods love through music. You can find some of her original Christian Songs at Soundclick.com. Otherwise, you will need to attend one of her events (where her CD's are given away). Susan's song: "Small Things" won two blue diamond awards in 2005. Susan is the proud mother of Scott Gaines, an electrical engineer specializing in communications. Scott and his wife Jean, their three children Shelby, Natalie, Matthew, and a dog named Rocky live about a mile up the street. The grandchildren, along with Davids daughter Lizzie, have sleep-overs almost every Friday night when a great time is had by all! In February 2006 Susan released

her first secular CD in response to her students asking if they could download a song she wrote for them: "The Sea of Calculus". She decided to make an entire CD available on CD Baby at a low price. For information, write to Susan Cantey at 6302 Girard Avenue, Cincinnati Ohio 45213 or email Susan at scantey@cinci.rr.com.
