Its those wacky, zany COMPUTONES, Ian Taylor Ross Costa...sounding better than ever since the lost tapes were digitally remastered after being found in a cave in Kaaawa, Hawaii this past year. An archaeologist stumbled upon the treasure trove while looking for early Hawaiian burial sites. He also found MIDI MADNESS, their first album which is currently being remastered in Southern California. In addition, valuable posters newspaper clippings were found documenting the duos legacy... Enjoy this collection of sendups, comedic bits downright tomfoolery of some of your favorite Christmas songs as only the COMPUTONES can do it. Even disk jockey Dr. Demento shook his head and said, Sorry, this stuff is too outside for my show. The COMPUTONES were heartbroken crestfallen that he didnt want to play it....but every year in a few dozen homes thruout the world families gather round to enjoy a holiday tradition, WE WISH YOU A MIDI CHRISTMAS...and now you can too! album art by Ian Taylor...notes by Ross Costa for more information email rossini05@hotmail.com 949-364-1643
