

# Mp3 Jefferson Goncalves - Conexão Nordeste ?grf%oia Ao Vivo?

[DOWNLOAD HERE](#)

A dynamo of talent, a virtuoso harmonica Player with a beautiful blend of elements in a synergetic pattern of performance. The "Perfect Storm" captured live. 12 MP3 Songs BLUES: Electric Blues, COUNTRY: Country Blues Details: With his original and unique style, the harmonica master Jefferson Goncalves, one of the big names on the carioca music scene, with more than 15 years of career have been building respect on his native country Brazil and also internationally.. Jefferson released in 2004, his first and very well successful solo album - Gria. After conquest Brazil, in August, 2005 Jefferson came out to another tour in the US with the well know guitarist Big Gilson and the British singer The Wolf being at this time recognized internationally as a harmonica virtuoso and became a reference on his instrument for his unique playing. Hes now on the challenge of the second album with the Conexo Nordeste - Gria ao Vivo. This CD was recorded live, July 19th, 2005, at the Teatro Il do Centro Cultural Banco do Brasil in no Rio de Janeiro.. I always wanted to record a live album. I see that exchange of energy with the audience is so strong.. says Jefferson. On the twelve tracks of Conexo Nordeste Gria ao Vivo, the harmonica virtuoso, plays with spontaneous and the charisma of an artists that knows what to do and the way to go. Almost the same ideas of the previous CD when I did a blend of traditional Brazilian music as forr, maracatu, baio and rock as you can listen on the folk songs from Bob Dylans All Along The Watchtower and Dont Think Twice its all Right and also revisiting Robert Johnsons Crossroads he says. But, there are some other news: Rollin Tumblin (Muddy Waters), Mellow Down Easy (Willie Dixon), got new arrangements from Jefferson, and Big Jake written by the well known American harmonica player Norton Buffalo, which Jefferson backed up in 2004 on his first Brazilian tour ever. Im great Bob Dylans fan as well says Norton. Different from the first CD, that was recorded in Rio and Recife, this live CD captured the atmosphere from the audience, and even not using musicians from Recife, he kept the same original arrangements of the GREIA CD. On the first CD GREIA, I had much sanfona and rabeca played for musicians from Recife. We dont have this kind of musicians in Rio, but my great band have knowledge to play this kind of music on their instruments says Jefferson. Jeffersons band is: Klber Dias (lead vocal, dobro, 12 strings acoustic

guitar and mandolin) , Srgio Velasco (dobro acoustic guitar, Lap Steel and backing vocal), Fbio Mesquita (bass), Beto Werther (drums and backing vocal) e Marco B.Z. (percussion). Guest musicians: Siri Percussion, Cecelo Frony (lead vocal e dobro) in Rollin Tumblin.
