One weekend. One cabin. Six musicians. The result? 6 beautifully crafted rootsy, political folk songs with a fire softly crackling in the background. Not to be missed. 6 MP3 Songs FOLK: like Joni, COUNTRY: Americana Details: On a cold weekend in May, 5 musicians led by Matty Powell went up into Ness Creeks Boreal forest. Armed with only their instruments, a generator, recording equipment and beer, they spent 3 days in a cabin with no running water, power or heat. The result is a honest, simple and beautiful e.p. that is reminiscent of days gone by when everyone made records like this. Whether it's the fire crackling or chairs squeaking this e.p. is an honest representation of a beautiful weekend, in one of Canada's most beautiful places.
