Originally making beats from his North Carolina University dorm room using FL Studio (Fruity Loops), he has since become one of the more acclaimed producers in the hip hop music industry. As an up-and-coming producer, he released a remix album of Nas' 2002 album God's Son entitled God's Stepson. This album began what is now a regular trend of remixing whole albums. 9th Wonder has a smooth and soulful production style that relies on samples from artists such as Al Green and Curtis Mayfield. When you hear his tracks you can groove with the main sample and of course with... the drums!!! Hard hitting Bass Drums, banging Snares, vinyl Claps and smooth HiHats is what you're looking for.... The Hip Hop Workshop is proud to present: "9th Wonder Drums" Drum samples that match the beat production style of 9th Wonder!!! This drum compilation is made by a beatmaker/producer for other beatmakers!!! This compilation contains: 170 9th Wonder Bass Drums 169 9th Wonder Snare Drums 110 9th Wonder Claps 70 9th Wonder Closed Hats 24 9th Wonder Open Hats 20 9th Wonder Shakers 11 9th Wonder Tambourines _____ 574 9th Wonder Drum Sounds There are toy beatmakers out there that say they have 10,000 and 10,000 snares... In reality, established producers only use about 10 to 50 BDs, 10-50 SNs and so on... and they just recycle them and change their library maybe every other season or on every other project they be working on. I've seen this in studios... Beatmakers using only 10 BDs and 13 SNs and maybe 10HHs for a whole album... They just EQ them and compress them differently on each track... If you are experienced with equalization and compressing, then you know that from a single drum hit you can produce maybe up to 10 different and "worth keeping" variations of that sound only by EQing and compressing it. So, if you're into the 9th Wonder beatmaking style, this collection will last you for many many projects/records. Copy-Paste into another folder the drums you like and use most. Make other smaller drum kits out of these drums. By customizing this drum collection you will get familiar with the big amount of drums we present. We advise you to use the same kits you've created over and over for a period of time. This way you will get familiar with the enormous number of drums and you will have your own signature on the beats you make. Cos thats the key! Use the same sounds through a period of time and your style will be noticed in your hood,
