

Mp3 We're About 9 - Paperdust :: Stardust

[DOWNLOAD HERE](#)

Knock-you-over harmonies and brain-tingling songwriting that will keep you wanting more . 12 MP3 Songs FOLK: Folk-Rock, FOLK: Modern Folk Show all album songs: Paperdust :: Stardust Songs Details: Baltimore-based contemporary folk trio Were About 9 releases their new album, Paperdust :: Stardust; a deep and powerful follow up to 2003s Engine. With a dark, rich sound that illustrates the bands growth and change over the past five years, Paperdust :: Stardust may be just the antidote fans need offering 12 new songs. On the record, WA9s offbeat nature shines. Were About 9s unique ability to capture the heart and soul of lifes mysterious ups and downs, makes this record a knockout combination that will give audiences a lot to sink their teeth into. After taking the show off the road for a bit more than a year, while pursuing careers and other musical ventures, Were About 9 was ready to get back in the studio. During that time a duo version of the group emerged. Brian and Katie continued playing spot gigs and writing songs, while third member Pat Klink played drums with a local rock band. Paperdust :: Stardust reflects their time apart and musical journey, playing with other artists along the way. We started this project most of a year ago as a duo album, says Brian. We'd been doing mostly duo shows, but we were also playing a lot of shows with special guests joining us, and we wanted an album that reflected that, and then we started playing a lot of trio shows again, and we wanted an album that reflected that. What we ended up with is the most lovely collage. Guests on Paperdust :: Stardust include: Naked Blue - Jen and Scott Smith Girlyman - Ty, Nate and Doris Andy and Denise - Andy Fox and Denise OBrien Abbie Gardner of Red Molly While some songs are duo focused, Pat Klink is also all over this record adding his magic and multi-instrumental talent to many of the songs. There are planes, berries, and miscreants. There's courting, love, and love lost. And it's all on one disc, engineered by the amazing Scott Smith of Naked Blue. "The twenty-something threesome's abilities as songwriters and performers is downright superb. Their material is literate, tasteful and often charmingly wistful, and their musicianship and vocal harmonies are world class." WVIA-FM - George Graham, Program Director
