"DJ Frane puts the THC in Technics" -High Times Magazine 13 MP3 Songs ELECTRONIC: Chill out, HIP-HOP/RAP: Instrumental Hip-Hop Show all album songs: Frane's Fantastic Boatripe Songs Details: Best known for his unprecedented back-to-back victories in the International Pussy Eating Olympics, DJ Frane likes to unwind from his intensive training schedule during the off-season to make a series of unusual mixed-media concept albums he calls "beats to blaze to." "I saw a lot of other pro athletes crossing over into the music world," says Frane. "Shaquille O'Neal was a big inspiration to me, as well as all those football teams that recorded rap songs about themselves in the 80's. I figured, I'm already known for setting records in the IPEO, maybe I could try my hand at a different sort of record!" And the results have been astounding. Frane's intricately woven beat symphonies have gotten O-faces from listeners around the globe. Still, some worry that Frane's musical successes mean he will be retiring from the world of professional cunnilingus competition. "Not by the hair on my chinny-chin-chin," Frane assures us. "Eating pussy will always be my main focus. I don't really take the music thing too seriously. If people like it, great! But really it's just for fun. I wouldn't do it if I thought it might affect my competitive form." Frane says he has even incorporated techniques from the playing field into his turntablism. "I do a scratch called Lightning Lips, which sports fans will recognize as one of my signature finishing moves."
