"Buddy Greene is one of those guys that have it all: writing chops, singing chops and playing chops. This CD is for anyone who loved "O Brother Where Art Thou?" or any kind of acoustic folk music. It's worth the purchase just to hear the opening cut - his version of "Sally Good'n"...it's fiddle music channeled through the harmonica! Amazing." - Kathy Mattea People who are interested in James Taylor David Wilcox Doc Watson should consider this download.
