65 MINUTES OF BEAUTIFUL IMAGISM AND PIANO SOUND COMPOSITIONS. THIS CD IS TO HELP YOU BREAK THROUGH "TO THE OTHER SIDE" 15 MP3 Songs NEW AGE: Solo Instrumental, EASY LISTENING: Mood Music Details: HI Everyone! We all need at some time in our lives a path or some way to get through something that is not easy. I wrote the music on this cd to help others "BREAK THROUGH" that which is hard to find an answer to and give you peace." This solo piano cd was Recorded on a Grand Yamaha Piano. Total time: 65:05 "Canadian pianist Mark Pinkus brings a lyrical and vivacious sensibility to his craft, resulting in an album filled with dynamic, at times playful compositions. Breakthrough celebrates imagery from nature, ranging from trees to frogs, from shadows to birds flying in the spring. "Wherever You Are" evokes the longing of a long-distance love, while the "Bedroom Window" evokes a sense of the comforts of home. Perhaps what makes Breakthrough a total aural joy is how humble it is-in not trying to make a grand musical statement, Pinkus captures the grandeur of ordinary life." Carl McColman of New Age Voice. "Mark Pinkus calls his public performances Slowing down Concerts. I like the concept. His idea is to take time to slow down and enjoy, if only for a little while, the peace that comes with the decision. It appears that his contemplative solo piano album, BREAKTHROUGH, can help you do just that. My favorite track on Breakthrough is WHEREVER YOU ARE. First of all the title is terribly romantic. Second, I think that everyone at one time or another has felt this way. Just imagine being away from someone you truly love. Even for a short time. There is a pang in the middle of your stomach. You have a shortness of breath, you are sweating and you feel an incredible yearning at the bottom of your heart. That emotion, that very feeling is captured in Mark's song. It is where you want to be....I like this idea of slowing down, Mark Pinkus' music allows us to slow down almost guilt free. I think I would like to hear this composer in person, and slow down for a while." RJ Lannan from newagereporter "BREAKTHROUGH" is very different from Mark's previous writing, so passionate, romantic and active, a great ice breaker!" Renee Gelpi, host of Galaxie on CBC digital television, Canada "Mark is in full control of his performance on this CD, each piece wonderfully played, strong and emotional. My father had a recording of great romantic piano performances that he listened to

regularly, and BREAKTHROUGH reminds me of that recording. Pinkus makes many gestures towards the Romantic masters." Bill Maclean, from Beach Metro News "Pinkus says this CD represents the breakthrough in the new millennium, as well as a personal, spiritual and mental breakthrough. He hopes people are inspired by his music. "We all need to get through something,"he says.
