Quirky electric birds in flight 18 MP3 Songs ELECTRONIC: Broken Beat, ELECTRONIC: Drum'n'bass  
Details: The slalom is a living thing just as we are and has a soul as we do. You look at the talons through a telescope and you have a microscope through which, if powerful enough, you would see almost the same sight. Talons are the sharp gripping toes of a peeper, ludic and frantic. Open up your beak and PEEP PEEP PEEP... Blevin Blectum is one half of the duo Blectum From Blechdom. Talon Slalom is a mind-bending trip, quite unlike most electronic records you've heard. This is dynamic sound/beat/loop collage that flows from fun, catchy and groovy to intense, dense and fractured. Blevin's solo work gets into deep sample-based sound design with extended themes, in comparison to the more lyrical songs and max/msp sounds of Blectum from Blechdom. The music on this CD is essentially the soundtrack to a movie+music live performance. The CD also comes with a Quicktime video for your PC or Mac (an excerpt from the Talon Slalom video produced by Ryan Junel). People who are interested in should consider this download.
