

# Party Atmos Chatter Hubbub Small Hall Quiet Sfx Sound Effect

[DOWNLOAD HERE](#)

This is the recording of a small gathering in a small reverberant hall. This is the quietest of the recordings on sale, see my other files if you require something bigger and busier including other backgrounds, applause, a selection of atmoses and hubbubs and some spot FX such as glasses / ice chinking plus a balloon popping. All files on sale by Sevenleaf SFX have been recorded by professionals and as such are royalty free. They are available for you to download as 16 bit 48kHz stereo wav files. Previews are low quality mp3 files with security watermark beeps. Purchased files are broadcast quality wavs without watermarking.
