

Things To Come

[DOWNLOAD HERE](#)

Things to Come sets out a future history from 1936 to 2036. It is set in the fictional British city of 'Everytown' (based on London; a facsimile of St Paul's Cathedral is in the background). Successful businessman John Cabal (Raymond Massey) cannot get into the festive spirit of Christmas Day, 1940, what with the ominous news of possible war. His guest Harding (Maurice Braddell) shares his worries, but overly-optimistic friend Passworthy (Edward Chapman) believes it will not come to pass, or even if it does, it will do good by accelerating technological progress. A sneak bombing raid on the city that night results in general mobilization and global war.
