We wanted to create something educational that our own children, and others, would LOVE. The Googol Power series is designed to spark their interest, create a love for learning and an appreciation of various music styles. We involved our children in every step of this creative process - from the naming of the characters to performing and recording the music you hear. It has been an exciting project for all of our families and we know that your entire family will have as much fun learning as we have. Visit us at googolpowerto learn more.
