Eclectic filk - science fiction/fantasy-influenced humorous and serious songs in many styles such as folk, pop, and a cappella. 15 MP3 Songs FOLK: Modern Folk, POP: Quirky Details: Blake Hodgetts is a musician and songwriter specializing in "filk music" -- the music of the science fiction and fantasy fan community. His songs have appeal across many genres, with subjects ranging from Star Trek to hamsters to unlikely love affairs. Blake's adroit pianism and chameleon-like voice bring a fresh palette to every track. "Blindsight" is his first solo release, featuring studio recordings of 15 of his most popular songs written mostly over the past four years. If you enjoy Tom Lehrer, "Weird Al" Yankovic, or almost any filk artist, you'll probably love this album. Assisting Blake on this album are guitarist Tony Fabris, flutist Arlene "Callie" Hills (of the filk duo "Echo's Children"), cellist Angelica Sather Hodgetts, and harpist Laura Zaerr. "Do not be fooled by the quiet expression and the calm exterior. Behind that moustache is the mind of an evil musical genius" -- Jordan Mann
