Details: ABOUT THE CD: The Irish Wedding Album is a guide to how to choose the music for your wedding ceremony. Having 15 years experience singing at weddings, Sarah found that when it came to music for the wedding ceremony, many couples were unsure where to start. On the CD, all the hymns, songs and instrumental music are divided up according to the different parts of the ceremony. The album has 30 tracks and includes all the wedding classics, beautiful Irish and sacred pieces, and great popular music, all on one CD. The CD has been recorded specifically in different locations and using different instruments - including pipe and digital organ, Irish harp, violin, piano and Irish flute - to give the listener a very clear idea of what their favourite instruments will sound like in a large or small church setting.
