Set Up eCommerce Site For Free w/ Wordpress Video Tutorial Learn how to set up a profitable online store without spending one single cent on software. This one hour video series takes you by the hand and shows you how! Step by step Owning your own e-commerce store can be a very lucrative venture. Just look at Amazon.com. They make a killing selling products on line. You can do that too - really. Just like any other business venture all you need is a good product and people visiting your store. Since your store will be on line it can basically run itself other than the shipping aspect if you are selling physical products. There is another kind of store you can build that does run on autopilot. You dont have to stock it, you dont have to ship anything, and the payments are all handled automatically. This type of store deals with digital down loadable goods. Our videos will show you how to set up your store using free software that handles the entire process no matter what type of store you want to open. If you are running a physical goods store all you have to do is ship the products. If you are going to run a digital download store it is all automatic after you set it up. This one hour video series will take you step by step through the process of installing the software and setting up your store. In our example we will show you how to set up a store for digitally down loadable goods. The process is virtually the same as setting up a store for physical goods with a couple of exceptions that we talk about in the video series.
