

Franck Piece Heroique Edouard Commette

[DOWNLOAD HERE](#)

This is a 1938 recording of Pice Hroque recorded on the organ of Cathedrale Saint-Jean de Lyon. The vigorous travelling tune, characteristically chromatic, with which it opens, needs to stand out from its background rather more than M. Commette allows it to do : but otherwise he gives an excellent and well proportioned performance and the tone of the full organ, discreetly used, is more pleasant than usual.

Diapasons and pedal reeds come out very well. Gramophone April 1939
