

# Mp3 Discover & Learn Series - Multiplication & Addition (revised Edition)

[DOWNLOAD HERE](#)

Enjoy this music with your children as they learn the basics of multiplication and addition. Great for teaching in the classroom, home schooling or just letting your kids have fun while learning. 8 MP3 Songs

**KIDS/FAMILY: General Children's Music Details:** We got so much feedback from our customers fans about our previous recordings. We decided to make this learning tool even better by grouping the equations into smaller subgroups. This will allow you to concentrate on particular numbers your students and children may need help with. So enjoy Multiplication Addition (revised) from our Discover Learn Series!!

**Our Story:** Two music producers who just happened to be teachers also were looking for music to help teach in their classes. So they went out looking for material at the typical retail stores. As time went on, it was obvious to them that they did not find what they were looking for. So they decided as musicians themselves, "why don't we make one ourselves"! So multiplication was the first song they worked on. They took it to school and played it for their classes and the kids loved it! Soon the other teachers wanted a copy! And so... Discover Learn was born! Soon after they decided to make others..Phonics song, The Addition Song, and States and Capitals! These two music producers are known as Tyke Mark J. and now you can enjoy the same music everyone else has. Winners of the Educational Creativeness Award in 2003. Use in your classrooms, home schooling or just great entertainment for your kids!!!
