Heres A Sneak Peak Into My Course... Video #1: Introduction to Your Consulting Business 14 Minutes and 10 Seconds In this video, we will kick start this video course. In it you will learn how the Secret Consulting Riches system works so you can implement it easily. You will also learn the exact tools that we use and that also can use to setup your Consulting business successfully. Video #2: Determine Your Skills / What Youre Good At 13 Minutes and 30 Seconds Before you get started, you need to think about all the different skill sets you have. Basically Im going to help you find what you are good at. But what if Im not good at anything? I highly doubt that. Everyone is good at something that can be monetized and theres a buyers market out there for every skill. In fact believe it or not, there is someone out there that wants to learn what you are good at. Now, you dont need to figure out what you are providing just yet. Were just in the brainstorm process at the moment. Video #3: Research Your Market and Competition 24 Minutes and 23 Seconds You need to figure out if there is truly a buyers market... and if so, what kind of competition in the consulting world, you face? The more competition, the better. However you dont want too much competition, you only want enough, because that tells you that there is a buyers market. Think about it - if there wasnt any competition, most likely there isnt a big enough buyers market for you to make good money. So well show you how to not only research your market, but see whether or not the area you want to go into is profitable or not! Video #4: Brainstorming: Figuring Out Your Services 17 Minutes and 59 Seconds You will learn how to dig deeper and take the skill sets you listed, and figure out what kind of services and consulting services you can offer. This will allow you to figure out what you will offer, how you will help your customers, and how you will make money. Video #5: Create an Outline and Create Your Services 24 Minutes and 5 Seconds Once you have done the proper brainstorming in video #5, its time to create a detailed outline of your services and create them. Templates are the key to this, so well talk about how to plan your services, create templates and checklists to help you and your customers. Video #6: Create and Setup Your Websites 22 Minutes and 21 Seconds By now, you have your service in hand, its time to put it up on a landing page or a website. In this video you will learn how to create and setup your landing pages / websites that will allow you to build your list, and gather leads and

communicate with them. Video #7: Prelaunching Phase - How to Build Curiosity 12 Minutes and 34 Seconds Before you launch your consulting gig, you need to build up curiosity. One of the biggest reasons why launches fail is because no curiosity has been built up. While this not required, this method will work as it is time tested. Video #8: Marketing: Find Out Where Your Clients Are Hiding 7 Minutes and 20 Seconds By now you have the system in place, however its time to market your consulting gig and services. Its time to find out where your clients are hiding and get them connected to you. If youve done the proper research in this system, then you will learn how to get clients quickly and easily!
