Swedish Melodic Death Metal 3 MP3 Songs METAL: Death Metal, METAL: Thrash/Speed Metal Details: In the end of 2005 CLOSER rose from the ashes of WITHERED, leaving setbacks and record label fuzz behind, making a fresh start. The band is based in the middle of Sweden and consists of five members with a middle age of 21 years. We know that we can compete with most metal acts and are devoted to reach there. Nothing is everything is the first recordings from CLOSER to be put on tape. It took one week of hard work in Studio Mega in Varberg to make this promo. The result is heavy and technical music with a modern sound, mixing elements of death-, thrash- and black metal. Our concept is to make the choruses really catchy without loosing the aggressive feeling. This is mixed with technical drums and guitars, aggressive vocals, funky bass and good song writing.
