Take the vibe and attitude of old school rock, fuse it with a modern edge, get some serious playing, mix it with real songs and you'd be getting close to what The Thieves sound like. 6 MP3 Songs ROCK:

Retro-Rock, ROCK: Classic Rock Details: On this record we wanted to capture our live raw sound, so we kept it simple and recorded at home in our garage in Los Angeles, in breaks from the road in 2006 / 2007.

We then mixed the songs at Kung Fu Gardens, Linda Perry's studio in North Hollywood, to give it the quality it deserved and to make it sound huge. This is the closest sounding record to our live sound that we ever got. Turn it up loud!
