Heavy, blues-funk '70's style rock. New classic rock. 9 MP3 Songs ROCK: 70's Rock, BLUES: Rockin' Blues Details: The Lizards authentically follow the path laid by classic rock groups of the past - Black Sabbath, Led Zeppelin, Rainbow, Deep Purple, Free. Drummer Bobby Rondinelli, who recently left Blue Oyster Cult to work full time with The Lizards, furiously pounds the skins whilst displaying some of the slickest chops known to man! Vocalist Mike DiMeo, formerly of the heavy metal group Riot, conjures up images of Robert Plant, Paul Rodgers and David Coverdale with his electrifying voice! "It's the type of music I grew up listening to...the stuff that I first started gravitating to as a singer is what we're doing in The Lizards." Bassist Randy Pratt, who proudly boasts the largest and most unique custom built bass collection in the world, is the rock and soul that holds the group together. His virtuosic bass playing is evident throughout the new album, as is his intense harp blowing! "The guys pushed me to step out on the bass this time, and I'm pleased with the results. Bobby doesn't leave much space...it was like roller-skating through an earthquake!" Guitarist Patrick Klein, who must have been reincarnated as a '70s rock guitar legend, plays with fluid innovation. His style and sound helps propel the group to new heights in performance! Klein also produces The Lizards - his position as studio whiz and guitarist is not unlike Jimmy Page's role in Led Zeppelin. The Lizards is hard rock at its very finest - the band explores the depths of rock, metal, blues and soul. thelizardswebsite.com Press Inquiries: Glass Onyon PR 910-395-8265 antbee0@cs.com
