Even prior to its official release "Primal" was already well on its way to expanding on the success of "Into the Abyss" The performance art/music duo Pocket Universe comprised of Edmonton artist's Lord Mykel and His Moonfyre have been creating together since 1999. Sharing a musical theatre art background, they ventured into the world of music together writing, recording and performing unique tunes. In 2002 they were challenged to create some "Scene Music". The acceptance of that challenge was the genesis of "Into the Abyss" and Pocket Universe's vision and talent coalesced. Together they have woven the magic that created the sensual aural experience found on their first CD "Into the Abyss" and that magic expands with their Second CD "Primal" Seductive and enchanting music is their forte and they have chosen to present it in the form of music created for sensually charged encounters. Music meant to be a soundscape to be used by the listener to create the perfect environment for corporeal escapades. Mykel, a composer and multi-instrumentalist writes the bed tracks of the songs. Moonfyre, a lyricist explores those tracks exposing the words and melodies within. Together they collaborate as producers in their own studio and bring to life their unique style of scene music. That style includes instrumentals, spoken word over music and vocal melodies; all featured in both their CD's. They produce their albums under the label of their independent production company Fyrewind Productions Inc. Lord Mykel and His Moonfyre exude enchantment and mystery. They embody a sensual and irresistible attraction of the type that hasn't been experienced before. They encourage you to step beyond the abyss into their "Pocket Universe"
