Step-by-step guides are a good way to start and that really cut down on your learning curves. However, Most marketing manuals teach you WHAT to do instead of showing you How To Do I have heard the same questions over and over again from many newbies on how to setup their online business. Things like... How do I register a domain name? What the heck is DNS and how do I change them? How do I register a web hosting account and get my site set up? How do I install popups on my website? You simply cannot setup a business on the Internet without knowing these and other basics steps. So, I decided that I was going to put together a series of online videos to help newbies cut their learning curve drastically and eventually get their own Internet business up and running a whole lot faster and easier. 3.
