This second orchestra and string loop pack is very different from our first massively popular offering. While that pack was largely focused on the soul/funk style of string arrangements this pack focuses on the darker side of the spectrum. Here you will get tension building string loops, huge orchestral sweeps and a massive selection of melody phrases all in one complete package. Listen to any style of Hip Hop over the last 20 years and you'll find a large portion of the beats feature strings and orchestration heavily, Dipset wouldn't have half the impact without all those soul stabs, as would Just Blaze, Kanye West and a whole host of others. Oh! think Dr Dre minus his string melodies... Just imagine your latest hot beat is nearly finished yet it lacks a bit of punch, you don't want to take too much away from the main melody but you don't want to busy the mix either, add some quality string stabs to match the kick drum and feel the track boom instantly. You need to add some moody tension to that storytelling joint ya making, what do you do? Drop a hint of a warm reverbed violin section in the background and your job's done. Let your tools match your imagination. \*Huge stereophonic Orchestra Loops \*Devastating Ensemble Loops \*Blazin Horn Section Loops \*Powerful Dre Type Stabs & Melodies \*Haunting Solo Lines \*Slow Menacing Sequences \*Plucked & Pizzicato Hip Hop String Loops \*A Large Variety Of Moods \*A Large Variety Of Tempos So there you have it, if you want some of the best string loops around to enhance your productions at a realistic price, this is the pack for you!!!
