Postmodern Honky Blasphemy 10 MP3 Songs COUNTRY: Country Folk, FOLK: Political Details: John R. Butler was once described by his songwriting hero, Roger Miller, as "that f*#er standing in front of the limo," when he tried to approach Mr. Miller for an autograph. Other than that, Butler has had few brushes with greatness. Currently, Butler entertains visitors to Captiva Island on Florida's Gulf Coast. He juggles pastel-dyed poodles and flaming chainsaws...at the same time. Butler has two grown children who lead meaningful, productive lives despite his influence. He also has a dog who is 13 and overweight. His hobbies include stunt flying, mountain climbing and lying about his hobbies. BY THE WAY, I'm looking for someone accomplished in digital animation to help me with a music-related project. If you or someone you know is capable in this area, please let me know. Grassyass
