"The fourth dimension of blues...country mysteries from the peripheries ...wailing soul-gospel screams from the other side...primordial Rock and Roll mythology oozing and grooving out of the depths." 14 MP3 Songs ROCK: Roots Rock, COUNTRY: Country Blues Details: "Jake La Botz is a creator of dark poetry and haunting song, the kind of music that gets in your bones and rides you for days, a sound and vision only those who've been to the bottom and clawed their way back up can generate. His midnight gifts evoke Hank Williams and Skip James as much as Tom Waits and Dylan. Not everybody will get this music - because not everybody is ready for the truth."
