

# Mp3 John R. Butler - Vampars

[DOWNLOAD HERE](#)

Honkymonkey Dementia 13 MP3 Songs COUNTRY: Bluegrass, COUNTRY: Country Blues Details: John R. Butler, plucked from his cradle by twisted fate, was raised in the woods by a pack of wild Pomeranians. This experience helped him bridge the gap between human and canine language, culminating in the release of "Yapyapyapyapyap Means I Love You" (Potbelly Press, 1991). Id love to go on and on about the earlier years of this cultural icon, but he reminds me that my task is to tell you about "Vampars". "Vampars" is a journey from drunkenness to sobriety, from the hollers of West Virginia to the sun-dappled streets of Miami, from the depths of heartbreak to the heady peaks of undeserved praise. You know, THAT kind of stuff. Security Moms beware: certain songs on this CD convey language or themes that may be inappropriate for young children. Worst of all, one of the little bastards might decide, after listening to the music of "Vampars," that youre not as right about things as you claim to be. Dont risk it. For the rest of you, the choice is obvious: get your hands on "Vampars" or find yourself behind the curve. I cant put it any more plainly than that. And dont forget to check out the special on pork butt at Norbs Hi-Mart. Renata La Plata, "Village Shopper Coupon Guide"
