

Mp3 Fire By Night - Time Out Of Mind

[DOWNLOAD HERE](#)

An exciting blend of rock, funk and pop layered with introspective lyrics and unforgettable melodies. 13 MP3 Songs ROCK: Acoustic, POP: Power Pop Details: Fire by Night is a band whose sound defies the labels that are commonly placed on grassroots operations such as theirs. It is the bands unassuming, accessible music coupled with their energetic and emotional live performance that has propelled them to popularity on the East Coast College scene and, soon, the rest of the U.S. Since its creation, Fire by Night has evolved from a singer/songwriter duo to a full five-piece band. The current line-up was formed in February 2005 and consists of front man Michael Walton, lead guitarist e.schwank, drummer Bill Grillo and percussionist Justin Hirsch. The scope, depth, and diversity of their music are key to the groups overall sound. From the unforgettable melody of Brick by Brick to the bluesy, stomping groove of Dragonfly, the band continues to stretch their outlook on how and why they write music. We are constantly changing, says Walton, so our approach to life and, in turn, our approach to music naturally changes with us. Highlights: Considering the groups short history, they have already accomplished a great deal. From their successful college tour to their live performance on NBCs The 10! Show the buzz surrounding this New Jersey quintet has been spreading throughout the country. In fact, they have been fortunate enough to share the stage with great bands such as Benevento-Russo Duo, Justin King Band, and Saving Jane. Currently, Fire by Night has just finished recording their first, full-length, 13-song album. Hope you enjoy!
