Details: Todd and Melanie Toews make their home in the prairie heartland of Canada and have been creating music since they first met in their early teens. They produced this first project at Bare Feet Studios (their newly named home studio - after the project was recorded without any socks on). Armed with a Martin acoustic, a Yamaha Clavinova, a Taye custom maple set and three weekends, a unique musical experience emerged revealing a character of the Creator and His deep love for creation. If you have ever felt that 'deep calling to deep' inside of you than this is a must-have album. Todd and Mel have been described as abandoned worshippers. This project is a mixture of clean acoustic passion wrapped around a pure blend of vocals that will take you soaring into another realm. They enjoy listening to various styles and artists but some of their greatest influences in the genre of worship are Kevin Prosch, David Ruis, Heather Clark, JoAnn McFatter, Jason Upton and Misty Edwards. Others have described their music as a deeply healing, refreshing and activating experience.
