African, Caribbean reggae pop. 17 MP3 Songs WORLD: African, WORLD: World Beat Details: Swedish Ugandan musician and actor Richard Sseruwagi (Seruwagi), has released what I find one of our greatest albums in recent years. The album is worth every length of your listening. Titled Racing The Clouds, drawn from a line in one of the songs, Miyo, it proposes the need to take up new challenges, trying my wings and fly. Thematically Seruwagi on Racing The Clouds, embraces quite an array from loving your self, enjoying life, taking care of your self and looking into the future and love what you are and know that life is very short and whatever time you have is precious. This is heard thru out the tracks on the album. He finalizes with a wonderful quotation: "Music is the food of the soul. I bring you this food and I hope that it will fill your souls with happiness as it did to me when I was making it for you. Enjoy it please." Richard Sseruwagi (Seruwagi) has also appeared in movies like The White Lioness together with Jesper Christensen from the new James Bond film Casino Royale, Tv episodes Tre Kronor (Three Crowns), The film Tolken (The interpreter) among others...
