A passport into a musical endeavor that touches its conspirator's ethnic, spiritual, literal and musical influences, while translating them into a perfect musical balance of old world nostalgia and modern experimentation. 11 MP3 Songs WORLD: World Traditions, WORLD: Middle East Details: Remarkable: Visa is old-soul, take-you-to-another-place music. At its finest. A side project that just had legs too strong for it to keep marinating in the backseat, Visas grown into an eight-member, world music phenomena. Its poignantly emotive, hard-charging, no-boundary folk that'll lift you out of your seat whether you're a hard-to-please grandparent or a punk-rocking prep. Every piece percussion, duduk, three guitars, keys, drums, bass and voice fits in just so. So well that songs fly past. So well that results are startlingly beautiful. So well that Visa might just be perfect.
