"I offer this CD to be used for all levels of healing for the Highest Good, in gratitude for my family: my parents, Mary and Ken, my two sisters, Linda and Gail, and the Feline Spirit who keeps coming back to me. Music and dance have always been an everyday joy in our homes and lives. Bless the harpists and harp-builders of the Earth. A single plucked string rings out with every human emotion and experience, and connects us to the Divine." Carol J. Spears What is Therapeutic Music? Therapeutic Music is the playing for individual patients, at the bedside, in hospitals, hospices, nursing homes, and private residences. It is NOT entertainment; it IS prescriptive music. Carol brings her small harp into the room of the patient, and is able to adjust playing style, rhythm, and melody to the changing needs of the patient. Scientific studies have shown the beneficial effects of live harp music in patients with cancer, pulmonary disorders, Alzheimer's, pre- and post-operative patients, kidney dialysis, pregnancy,

childbirth, and comfort care for the critically ill and dying. Carol also plays a larger harp for ceremonies, memorials, meditations, and seminars. What is Reiki? Reiki is an ancient, gentle form of hands-on, natural healing using the Universal Life Force Energy. This loving Energy is limitless and available to be shared with all the Earth and all living things. It is not tied to a religion or nationality. Reiki healing energy flows through Carol to you. Healing is accomplished by you, working in partnership with the universal life force energy. Reiki is very effective with all other types of medical treatments. Since it works on physical, emotional, mental, and spiritual levels, it helps you in your spiritual or meditation practice. Carol also can provide shorter Reiki sessions in the workplace as a stress-relief for the staff of businesses and medical facilities.
