

Smooth R&b Drum Kits

[DOWNLOAD HERE](#)

We are back in the building! Beat-Makerz Studios is back with kit that was highly requested by our customers. You asked for it and we delivered. This kit was inspired by producers such as Brian Cox and The Underdogs as well as the music of Trey Songs, The Dream, Mariah Carey, and many more. This kit has been expertly crafted to provide nice, smooth, clean one hit samples to make your R&B tracks hotter than the next man's. These sounds were recorded and designed by professional engineers using Pro Tools for the best sample quality available. These samples have been processed with Waves processing tools and SSL compressors for more impact and presence in your musical creations. Many drum libraries tend to have overused fx, have digital distortion and lack clarity as well as the natural sounds that some of our favorite producers have come to rely on to make hit after hit. Our samples are carefully picked, recorded, and fully analyzed to ensure that they are clear of any faults and have more live sounding feel which is credited to the drum sets, sound modules, and samplers which are widely used by award winning producers. You will notice the difference once you apply these sounds to your musical works and you will not regret it. This product is delivered digitally, so once the purchase is made you can get to making your hits immediately afterwards! Not only does this give the product as fast as your internet connection can provide, but it also saves you \$money\$ on shipping and handling charges. A broadband connection is recommended for this purchase to ensure delivery in a timely matter. Kit includes 77 studio quality one shot audio samples which includes kicks, snares, hats, percussion, and effects. For audio samples of loops made with these drums visit beat-makerz.com
