The ACID Edition of 'Funked Up' is here and ready to download to your computer. We spent nearly a year putting 'Funked Up' together and our aim was to create a timeless collection that producers could use in a wide variety of different production genres, a totally Usable collection of loops and samples that you will come back to time and time again for many years to come. We employed the best musicians and we recorded everything in our Pro Tools HD TDM studio using the world's leading audio production gear, so you can be sure the quality is as professional as you can get. We have now converted our entire series into this special ACID edition, for all users of ACID Software. About Funked Up: ACID Edition: The ACID Edition is a specially prepared version of Funked Up Complete for ACID Pro. We have expressed the key and one-shots in all of the content where relevant and turned all of the horn and vocal "riffs" into loops. KEY is included where relevant. You can use this edition for any format requiring WAV samples. However, if you use Garageband, then you might want to go for the Funked Up Apple Loops Edition as this is the same product, but in Apple Loops format.
