

Mp3 David Hartley - Once A Day

[DOWNLOAD HERE](#)

Pedal Steel Guitar Instrumental Album By David Hartley 19 MP3 Songs in this album (57:29) ! Related styles: COUNTRY: Traditional Country, COUNTRY: Honky Tonk People who are interested in Buddy Emmons Lloyd Green should consider this download. Details: This CD includes a 19 more of my pedal steel instrumental tracks heard and broadcast on You Tube during 2007/2008. I must thank you all for watching my broadcasts as in just 1 year I have had over 500,000 views. All these tracks feature the Hartley Rains steel guitar which is now available as a signature model being made to order by Gary Carpenter TX. This is a great honour for me to have this instrument manufactured with my specifications. Steel guitarists around the world have been watching me perform these over the last few months and I really must thank you all for your comments. Music has always been a very important part of my life although I have only had 2 years playing professional in my younger days. I think the highlight of my steel playing career was when I was kindly offered a spot on the main stage at the Texas Steel Guitar Jamboree in March 2008. You all made me very welcome there and I look forward to visiting Texas again in 2009 and playing a few tunes for you all again. I never rehearse these recordings, I put on a track, play along and record it. If you ever see me live, you will hear that I never play the instrumental the same twice. Thanks to Kay White for taking the cover photo at the Brittville Country Music Festival, Littleport, UK. Enjoy the music!
