Details: Inner demons I dont fight them I am on their side How many artists can claim to have single-handedly originated a musical genre? Italian quintet Belladonna are amongst that rare breed of bands whose absolute uniqueness enraptures and inspires countless followers and imitators all over the world. Rock noir, that Belladonna extraordinary brand of emotionally-charged rocknroll melodrama utterly seduced those beautiful hordes of Music lovers sick'n'tired of being force-fed todays computer-driven, fake-angst-ridden pseudo-rock down their ears. Belladonnas now-legendary self-produced debut Metaphysical Attraction resounded so deeply in rock fans collective consciousness that it not only turned the band almost overnight into one of the most loved unsigned bands in the world, but it even bestowed upon them the honor of 2 Grammy Awards 2008 ballot nominations, an unprecedented event for a DIY band. Over 1.000.000 views on MySpace, magazines like Rolling Stone, Glamour, and GQ hailing them as the "next big thing" one critic going as far as saying If Belladonna was the band that kept playing as the Titanic sank, nobody would have left the damn ship -, shows with Dita Von Teese at Erotica 07 in London, gigs with major acts like Scars On Broadway, and Siouxsie the Banshees, performances at the Dubai International Film Festival, - but Belladonna remain unfazed. All that matters to us is the Music explains Luana, the sultry, sensual, sonic-seducin Belladonna singer. That magical moment when a song sends shivers down your spine, thats what Belladonna is all about thats what we believe Music should be all about adds guitarist Dani. And their phenomenally spine-tingling follow-up album is indeed all about the Music. Personally invited by alt-rock producer supreme Sylvia Massy (Tool, System of a Down) to record their sophomore album in her awesome all-analog studio in California, USA, in a few weeks of incendiary sessions Belladonna have committed on tape 11 astounding rock noir Luana/Dani-penned songs that erupt from the speakers with stunning sheer sensual energy. The records title itself - The Noir Album - betrays the classic status that

this record has gained even before having been released: regal yet raging, with a rawness and honesty that perversely suits the heart-stirring beauty of the melodies and the metaphysical suggestions of the lyrics, The Noir Album will challenge Belladonna's attempts to stay cult-size. Pyromantic, mysterotique, visionoir are the words Luana coins to describe it and, paraphrasing the smashing album opener Alchemical Romance, she adds: One day we stopped fighting our inner demons, and went on their side. And this Music just poured out.
