Swinglefunk Vol 1 Exotic Synth Rhythms Acid Loops - 16 bit files 331 files - 425 megs 97 bpm The Swinglefunk volumes are being offered at a lower price than the others since a lot of it is very similar. It is quite versatile and well played though. The upside to lots of similar loops is that there are lots of variations to use to create a more flowing song. Check out the demo song to get an idea of what I mean. To hear samples and demo songs from this disc click here. Swinglefunk Volume 1 contains one funky 4 bar motif with some swing to it, and lots and lots of rhythmic and tonal variations. The key is C and the tempo is 97. The tonal nuances range from pad sounding to wah wah guitar sounding to organ sounding to kalimba sounding while the rhythm is modulating as well. The tones transpose and layer well, allowing you to make more complex chordal variations and rhythms, and the motif lends well to lots of different styles. Swinglefunk volume 2 is the second half of the same jam and volume 3 is additional takes in different keys. All loops are completely acidized including the setting of the keys.
